Started my career as an ios developer in 2013 with a couple of startups Korvids consulting and xperts infosoft. They were service based companies and I was working on short projects there. Then I switched to product based companies: worked with Fareportal which is a travel company and Doctor anywhere which is in the healthcare domain. And lastly I have worked with To the new.

INDUSTRIES: Health and Fitness, Travel

TECHNICAL SKILLS

• xcode	9 years
