As an iOS Developer with 4.2 years of experience, I have honed my skills in developing high-quality mobile applications that are both functional and user-friendly. I have extensive experience with Swift, Objective-C, and Xcode, and have successfully launched numerous applications on the App Store. My knowledge of iOS development frameworks such as UIKit, Core Data, and Core Animation has allowed me to create seamless user experiences and beautiful designs. In addition, I have experience with third-party libraries and APIs, and have integrated various payment gateways and social media platforms into my apps. I pride myself on my ability to work collaboratively with cross-functional teams, including designers, product managers, and QA engineers, to deliver top-notch products. I am highly skilled in debugging and troubleshooting, and am committed to delivering high-quality code that is both efficient and maintainable.

INDUSTRIES: Education, Ecommerce
