• MVVM	7 years
• Unit Testing	6 years
• Clean Architecture	4 years
• TCA	4 years
• Combine Framework	3 years
• SwiftUI	3 years

PROJECT DETAILS

• Socure June-2020 - October-2022

Project Description: Digital identity verification and fraud detection iOS app project
Responsibilities: I was involved in 2 projects. One was to update the Socure iOS SDK and demo iOS app. I attached the AppStore link below. Socure iOS SDK and demo app was built with Swift, Objective-c, MVVM, RxSwift and Alamofire based RESTful API. I was responsible for improving the iOS SDK and a demo App using the SDK for this Digital Identity Verification & Fraud Detection Service App. Another one was to build an MVP version of their internal business & customer management app from scratch with SwiftUI, Combine and modern concurrency of Swift language for the last 1 year. I built the customer connect, support and communication sections using VIPER design pattern, SwiftUI, Combine and GraphQL based API with Apollo client. This app is not available on the Appstore for internal use. I collaborated with team members in different roles of UX designers, QA engineers, Product manager, Backend developer and other mobile engineers to solve emergent technical issues and develop effective solutions.
Technologies: Swift, RxSwift, VIPER
Industry: Financial

• Paramount Plus October-2022 - May-2023

Project Description: OTT streaming app for iOS , tvOS with huge number of users.
Responsibilities: I have built apps for the OTT service - Paramount+ for a 6 months contract. I was responsible for building iOS app and tvOS app with technical stacks following: Swift, iOS SDK, tvOS SDK, Cocoa SDK, MVVM, RESTful, Streaming, UIKit, Core Animation, Core Text. I collaborated with team members in different roles in the Agile working environment using CI/CD tool - Bitrise.
Technologies: Swift, UIKit, MVVM, tvOS
Industry: OTT
