A results-oriented mobile app engineer with more than nine years of experience. Developed more than thirty native mobile applications designed for both iOS and Android and successfully executed more than fifteen updates to existing applications for a variety of small to midsize companies. Results include high performance, session lengths, retention rates and referrals. I've experience developing macOS apps as well, I've developed five macOS applications. I've created robust apps with a clean and intuitive user interface. I write highly readable and easily maintainable source code. I am constantly striving to learn new technologies and looking for ways to better myself in this rapidly changing industry.

INDUSTRIES: Aerospace and Defense, Health and Fitness, Media and Communication

TECHNICAL SKILLS

• iOS Development	8 years & 8 months
• iOS SDK	8 years & 8 months
• ObjectiveC	8 years & 8 months
• C#	8 years & 8 months
• Swift	7 years & 8 months
• Firebase	6 years
• Project Leadership	6 years
• Project Management	6 years
• XCTest	6 years
• CI CD	5 years & 6 months
• CICD	5 years & 6 months
• GraphQL	5 years & 6 months
• Xamarin	5 years
• Android	4 years & 8 months
• Java	4 years & 8 months
• macOS	4 years
• Firebase firestore	4 years
• Kotlin	3 years & 8 months
• XCode Cloud	1 years

SOFT SKILLS

Communication, Teamwork, Critical thinking, Time management, Problem-solving

PROJECT DETAILS

• Double Shoot April-2021 - June-2022

Project Description: The client is an Israeli company that provides solutions for training personnel on shooting and marksmanship. They wanted to develop mobile apps capable of accurately calculating shooting practice scores from target images, showcasing excellent precision.

Responsibilities: • Led the development of native mobile apps collaborating closely with the client to refine requirements and estimate each module's scope. • Worked alongside a C++ developer to integrate an algorithm for calculating shooting practice scores based on captured target images, forming the app's core functionality. • Utilized Swift and Xcode, along with some Objective-C, for iOS development, ensuring seamless compatibility with Apple devices. • Collaborated with the backend team to design the database and RESTAPIs, facilitating seamless data exchange between the apps and servers in JSON format. • Engaged in direct collaboration with the company founder and their non-technical team, gathering feedback for continuous improvement.

Technologies: Swift, Objective-C, Java, Angular, MySQL.

Industry: Aerospace and Defense

• Flawless: Skin Care Tracker August-2021 - June-2022

Project Description: The client - a solo founder, wanted to create an app that would allow users to track their skin care routine on a daily basis. I delivered a skincare tracking app that garnered high ratings on the App Store and attracted a substantial user base, including paid subscribers.

Responsibilities: • Collaborated directly with the app creator to develop a native mobile app focused on tracking users' skincare product usage. I facilitated refinement of requirements, scoped the project, and provided accurate estimates to align with the client's vision. • Conducted iOS development using Swift with Xcode, ensuring optimal performance and compatibility with Apple devices. • Took charge of backend development, utilizing Firebase to establish a robust and scalable infrastructure. • Implemented a freemium model where users could save details for up to three products in the free version, encouraging premium subscriptions for additional features.

Technologies: Swift, Firebase.

Industry: Health and Fitness

• Awakend Mind November-2017 - August-2018

Project Description: The client is an Australian company specializing in meditation and mindfulness. They wanted to develop a mindfulness app that would cater the needs of a beginner, and intermediate to advanced practitioners. The app needed to be suitable for both individuals and businesses in need of a corporate wellness program. We delivered a robust solution meeting the client’s expectations.

Responsibilities: • Worked with senior members of the agency to refine project requirements and define the scope, ensuring alignment with client expectations. • Took a leadership role in the mobile app development process, overseeing both iOS and Android development; collaborated with the design team and the client to design the app user interface. • Developed iOS apps using Swift and Xcode, while the Android app was developed in Java using Android Studio. • Collaborated with the backend team to design the database and RESTAPIs, facilitating seamless data exchange between the apps and servers in JSON format. • Introduced features exclusively for premium members, accessible through app subscription purchases, enhancing monetization strategies.

Technologies: Swift, Kotlin, MSSQL, C# - .NET, AWS.

Industry: Media and Communication

EMPLOYMENT HISTORY

• Mobile Application Developer

Description: • Creating iOS and macOS apps using Swift and Objective-C, Android apps using Kotlin and Java, hybrid mobile apps using Xamarin and C#; also, I performed the role of a project manager for some of my clients leading their development team. Designed and developed NoSQL and SQL based databases and created web apps using ASP.NET, core PHP and PHP-based frameworks, created RESTful web services.

• Lead iOS Developer July-2015 - August-2018

Differenz System Pvt. Ltd.

Description: • Created native iOS apps using Swift and Objective-C, prepared estimates for mobile app projects, collaborated on creating user interfaces, worked with the backend team to design and develop NoSQL and SQL based databases and RESTAPIs. Led the project development team.

• Web Developer October-2014 - July-2015

Activous Solutions

Description: • Developed SQL based databases and created web apps using ASP.NET, core PHP and PHP-based frameworks, created RESTful web services.

• Web Developer March-2014 - October-2014

Night Fox Technologies

Description: • Developed SQL based databases and created web apps using ASP.NET, core PHP and PHP-based frameworks, created RESTful web services.

EDUCATION

• Bachelors degree in Computer Science Engineering from C. K. Pithawalla College of Engineering & Technology 2009 - 2014

LANGUAGES

• English - native
