• stylework September-2021 - February-2022

Project Description: A cup of brewed coffee, freshly baked food and most importantly the aura of like minded people to share your ideas, clear your doubts and argue on nuances from providing these to having your own virtual office space and virtual office address, this is what we provide at Stylework. We provide you an opportunity to escape your mundane and silent four walls of workspace to an environment where you can meet people working for a similar purpose. We provide spaces for people to co-work, startups to mingle and brainstorm, businessmen to have meetings at our shared office spaces and meeting rooms. All available to hire. At Stylework, we allow you to choose from multiple working spaces - co-working cafes, co- working spaces, corporate lounges, where you can work at, while sharing a range of other facilities with their co- tenants (WIFI, Working Stationary, and Complementary Beverage). This personalisation enables you to integrate your lifestyle with your work style and plug into a like-minded community. When you work alongside people that share a similar passion, it creates an instant camaraderie and support system that is hard to find, working alone. Also socialising keeps people happier and balanced, leading to more work productivity long-term. We provide you with a platform that attracts people of diversified backgrounds and industries creating the best smorgasbord of talent. The interaction and sharing of perceptions in such an environment promotes the participants' inspiration and contributes positively to the development of your business.

Responsibilities: Here at Stylework we believe in 'Letting yourself free when you work'. It is a state of paradise which when achieved opens up all the accesses of intellect, humour, patience and creation. We are here to create channels that will ease up all the processes related to the most potential thing that we hold in our life journey.
