PROJECT DETAILS

• Stick Me Notes December-2020 - February-2022

Project Description: *Over 1.5 million downloads* Featured in 'What's Hot' & 'New & Noteworthy' Organize your to do list, task list, and reminders with StickMe Notes - the most awesome sticky note & task manager app with built in alarm for iPhone. Use StickMe Notes to upgrade the boring old paper note with HANDWRITTEN or TEXT or notes on your iPhone. If you are too tired to draw or type, you can simply ATTACH A PHOTO or RECORD YOUR AUDIO NOTES. You can stick these notes with attachments such as text, drawing, record/audio or photo notes to your personalized notice board, set them as your lock screen image or share with friends using email or whatsapp. Use StickMe Note as your notebook & create grocery and shopping lists on the go.
Responsibilities: - Co-created Stick Me Notes app with 1 million downloads. - Designed user experience frameworks for multiple screen sizes. - Implemented Widget Kit and UIKit components. - Managed patches via iOS automatic updates. - Written Unit Test cases for improved quality. - Applied MVVM and MVC patterns.
Technologies: Swift
Industry: Utilities

• ClicFlyer May-2019 - December-2020

Project Description: Maximize your weekly and monthly savings-Use ClicFlyer and never miss a deal again. Features you will absolutely love: • Interactive Flyers: You can conveniently browse through flyers and even click on the offers you like to see more details and save, sort and track them. • Mark your favorite retailers: Once selected, they will appear on the top. • Shopping List: Create your shopping list or once you save an offer you like, it will appear in your shopping list. You can compare, sort and filter by items, categories and retailers. Save the top offers from different stores and make a shopping list of maximum savings. • Search Bar: Our free search allows you to search by brand, product and categories. It also provides smart suggestions. • Store Information: Click on a deal for store availability along with maps and open hours to over 10000 listed stores. • Categories: The category page has 15+ categories including grocery, Electronics, Health and Beauty, Baby and Mom, Home and Garden etc. that makes it convenient for you to browse offers. • Filters and Discount Slider: There are filters for the type of retailers you are looking for and also a discount slider on flyers which helps you set the discount range and filter the rest of the offers out. • Online Coupons: Online coupons for instant savings!

Responsibilities: - Integrated APIs, payment platforms, and StoreKit SDK. - Ensured adherence to UI guidelines and quality assurance.

Technologies: Objective-C

Industry: Shopping
