As a seasoned Senior iOS Developer, I bring over 8.5 year of hands-on experience in crafting robust and user-centric mobile applications. Proficient in Swift and Objective-C, I have a proven track record of delivering high-quality code and leading cross-functional teams to successful project outcomes. My expertise spans the entire app development lifecycle, from conceptualization to deployment, with a focus on creating seamless, intuitive user experiences. Committed to staying at the forefront of iOS technologies, I thrive on solving complex challenges and contributing to the advancement of cutting-edge mobile solutions.

INDUSTRIES: Hospitality, Ecommerce

TECHNICAL SKILLS

• iOS	8 years
• Xcode	8 years
• Swift	6 years

• SwiftUI	1 years

PROJECT DETAILS

• Teleafya January-2020 - July-2021

Project Description: TeleAfya, One App for all your Medical Needs. TeleAfya provides a healthcare delivery platform for all your medical needs. This is a one-stop platform for mobile healthcare, Telemedicine & Wellness. We connect patients to community medical personnel and medical outlets in closest proximity. For Patients TeleAfya connects patients to specialized medical services that may be otherwise unavailable in their community. TeleAfya also allows patients to avoid the time associated with traveling long distances in order to see a specialty service provider in-person. Additionally, patients can avoid extra visits, scheduling, and wait periods if the specialist is regularly available for TeleAfya appointments. For Community Health Workers – TeleAfya also serves as a platform to provide remote access to community health workers. It enables Community Health Workers to continue bridging healthcare gaps and challenges facing rural communities Teleafya, Empowering Healthcare Providers by bringing together all the players of Healthcare delivery ecosystem on a digital platform. KEY SERVICES You can enjoy some of the amazing TeleAfya Services listed below when you download the TeleAfya App: Search Medical Specialists and medical outlets nearby such as: Women Health Specialist Child Health Specialist Dental Care Specialist Digestive Issues Specialist General Physicians Eye Specialist Mental Wellness Specialist Diabetes Management Specialist Patients and Medical Providers can search for Transportation needs such as Ambulance services General Ride services Food Delivery Services Medicine Delivery Services Patients can search for Medical Facilities such as Diagnostic Labs Medical Clinics Nursing Homes Dental Offices Pharmacy Shops Hospitals Urgent care Dispatchers KEY FEATURES You can enjoy some of the amazing features listed below when you download the TeleAfya App: ???? Video Consultation - Patients can search, book, and consult with Medial Providers by state of art video calling voice within the application without having to leave their home or work. ???? Voice Search - Users can search for anything by voice within the application instead of typing, use voice features to get quick results. ???? GPS Live Tracking - Users can track Medicine Delivery & Medical providers live locations. It will dynamically share and update your location in real-time even when TeleAfya is in the background. ???? Chat & Calls - TeleAfya will give a facility of Chatting & Calling to users once he/she will book his services. Everything Nearby Location Based - Whatever user will search get the information within the location (Medical Specialists, Ambulance Providers, Hospitals, General Transportation Providers, Pharmacy shops, Food Delivery Services) ???? Hashtags Based Search Engine - Users can search for anything within the application by using #HashTag with their local language. Review & Rating - It’s based on the consumer’s experience and level of satisfaction with the service provider. To Learn more visit Teleafya.com or Teleafya facebook page facebook.com/teleafya/
