Having 2+ years of experience in iOS Mobile application development, I'm seeking further growth in my career hoping to excel more in my current field. Had been working on a fintech app for the past 2 years using Swift as a primary language and also utilizing technologies like RxSwift, MVVM, Bitbucket, JIRA, and more to aid development.

INDUSTRIES: Travel, Fintech

TECHNICAL SKILLS

• Swift	2 years & 6 months
• RxSwift	2 years
• MVVM	2 years & 6 months
• Xcode	2 years & 6 months
• Storyboard	2 years & 6 months
• Bitbucket	2 years & 3 months
• Jira	2 years & 3 months
• Restful API	2 years & 3 months

SOFT SKILLS

Critical thinking, Problem-solving, Quick learner

PROJECT DETAILS

• Countries — August-2021 - September-2021

Project Description: An app with a list of countries fetched from an API.
Responsibilities: Complete development of the app for demo purposes.
Technologies: Swift, Storyboard.
Industry: Travel

• Ooredoo Money

Project Description: Ooredoo Money is a fintech application available for both Android and iOS platforms natively. The app provides a consumer with a digital wallet that has a wide variety of uses, namely wallet-to-wallet transfers, bank transfers, recharges and bill payments, international transfers through multiple exchange houses, gift vouchers and coupon purchases, virtual cards, and much more.
Responsibilities: Using the Swift language and RxSwift for the development of various features by designing screens and integrating various APIs. Also following MVVM Design patterns for cleaner and more robust coding practices. Fixing bugs from current development to rare bugs relating to production as well. Utilizing Bitbucket and Sourcetree for source control and JIRA software for issue tracking and agile development. Assisting the team in accomplishing the various tasks and resolving blockers. Researching to stay updated with the new developments in technologies(Xcode, languages, tools).
Technologies: Swift, RxSwift, MVVM, Storyboard, Bitbucket.
Industry: Fintech
