Communication, Teamwork, Problem-solving

## PROJECT DETAILS

• Local Vocal June-2023 - March-2024

Project Description: Local Vocal is a marketplace app that is designed for shops, rather than individuals. The app is similar to eBay, but it is tailored to the needs of local businesses. The app allows shop owners to list their products and services, and customers can browse and purchase from a variety of local businesses in one convenient location. The app aims to support and promote local businesses, by providing them with an online platform to reach more customers. It's a great tool for customers to discover new and unique products from local shops.
Responsibilities: Writing clean, maintainable and efficient code in Swift to implement the project requirements Contributing to the development of the platform that connects auto-owners and drivers
Technologies: Swift
Industry: Information Technology

• Aram Hotel January-2021 - August-2021

Project Description: It is for ordering food items from Aram Hotel. This app is used in both Guest User and Registered User. If the User is a Guest then the User can view All the food Items It provides facility of tracking the order food, different payment mode, feedback etc.
Responsibilities: I have develop the application from scratch and developed each and every Module and UI
Technologies: swift
Industry: Information Technology
