• Swift	5 years
• SwiftUI	2 years

SOFT SKILLS

First Principle Thinking, OKR

PROJECT DETAILS

• Little Black Book — August-2016 - September-2018

Project Description: LBB is your one-stop lifestyle app to explore what's cool, new, and trending in Home, Fashion, Beauty, Local Living, Travel & More!
Responsibilities: At LBB, I lead the research and analysis efforts to identify user needs and determine necessary enhancements for existing features. I leveraged data from various sources such as Segment, Clever Tap, and user feedback to drive informed decisions that resulted in improved user experience.
Technologies: iOS, Swift, MVVM
Industry: Lifestyle

• Toppr — August-2015 - July-2016

Project Description: Toppr is an ed-tech platform that provides a tool to prepare for IITJEE, PMT exams
Responsibilities: As the lead developer, I designed and developed the Toppr app from scratch using Objective-C, enabling students to actively prepare for IIT JEE, PMT, and school board exams. This involved implementing key features such as a comprehensive study planner, practice quizzes, and personalized learning recommendations.
Technologies: iOS, Objective C, MVC
Industry: Education

• Gratitude — October-2018 - April-2023

Project Description: The Gratitude app is a tool that helps you build a daily routine for being mindful.
Responsibilities: I have developed its iOS app that caters needs of hundreds of thousands of people worldwide. It's been rated 4.9 with 60k ratings.
Technologies: iOS, Swift, MVVM
Industry: Health and Fitness
